General Manager, Supervisor: May 2016 - December 2017

As a General Manager at the Surrey Vaults, I took responsibility for almost every facet of the business. This included and was not limited to events, stock, marketing, social media, bar management, staff management, customer service and finances. I was the first point of call to suppliers, the council, promoters, customers, directors, accountants and artists. I have, most times, had to be on call almost 24/7 and it was common for me to spend the entire week fulfilling my duties. In terms of design, I built the company website and designed posters for different promoters including NTS, Noods Radio and in-house residents to the Surrey Vaults itself. Since taking up the manager role I specialised staff into different areas thereby sharing roles to help make the business more efficient which the director credited with having increased takings.
